Subject: New Hampshire Voters Support Reforming the Filibuster to Pass the For The People Act

Date: July 15, 2021

A new poll in New Hampshire, conducted by Public Policy Polling on behalf of End Citizens United/Let America Vote Action Fund, shows that not only do Granite Staters support the For The People Act, they also support reforming the Senate filibuster rules in order to get it passed.

KEY SURVEY FINDINGS:

- After hearing a description of the For The People Act, 62% of voters say they support the bill, including 63% of Independents.
 - Description: “The For The People Act, which is currently being discussed in the U.S. Senate, is voting and elections legislation that ends dark money, enacts anti-corruption measures, stops partisan gerrymandering, and protects the freedom to vote for all Americans.”
- By a 9-point margin (45%-36%), New Hampshire voters think that the Senate should reform the filibuster to make it easier to pass the For The People Act.
- An even higher percentage of Granite Staters supported reforming the filibuster when framed in real-world, consequential terms. Voters were asked which of the following statements came closer to their point of view: “We need to reform Senate rules in order to get dark money out of politics and protect the freedom to vote. We cannot let politics and process stand in the way of protecting our democracy,” or “We need to stick with tradition and preserve the rules of the Senate even if it means failing to pass important legislation to protect our democracy.”
 - 61% of voters, including 56% of Independents, said that the statement about needing to reform Senate rules came closer to their view.

Public Policy Polling surveyed 547 New Hampshire voters from July 7-8, 2021. The margin of error is +/- 4.2%. 50% of interviews for the survey were conducted by telephone and 50% by text message.
