202307076772	Dauphin County Library System	Lykens Dauphin County	NAP	\$22,000	This plan will renovate four existing handicapped access ramps and repair two curbs along the Main and Arch Street-facing sidewalks encircling Northern Dauphin Library. These ramps and curbs connect to crosswalks along Main Street and create the entryway to the parking lot, including handicapped parking, from Arch Street. The scope of work includes design and permitting; demo, roadwork signage, and flagger force; patch-in roadway at crosswalks/ramps; concrete and identification mats; and general conditions. These renovations will remove barriers to accessing the library and its services, especially for those with mobility or visual difficulties.	Mid Penn Bank, M&T Bank
202306274333	Habitat for Humanity of the Greater Harrisburg Area	Harrisburg Dauphin County	NAP	\$24,750	HFHGH will increase the number of affordable housing units in Harrisburg City and the rate of homeownership and financial stability for families in Dauphin County by partnering with families to provide affordable home ownership opportunities through the Homeownership Program. The three main criteria for the Homeownership Program are need of housing, ability to pay, and willingness to partner with HFHGH. HFHGH ensures home buyers are invested in the opportunity by requiring 350 hours of "sweat equity" toward the construction of their home including assisting with construction, attending financial literacy and home maintenance workshops, and working in the HFHGH office or Habitat ReStore. When construction is complete, the home buyer can buy the home at fair market value with payments calculated to equal no more than 30% of household income. 95% of homeowners will complete the requirements to be eligible to purchase their own affordable home. 202306304748	Pennsylvania College of Technology Foundation, Inc.	Williamsport Lycoming County	SPP	\$500,000	The project will be accomplished by renovating two existing labs to increase capacity for 15 additional students for fall 2024 and 30 for fall 2025, and by building one new lab space to accommodate the rapid growth of the electrical program at Penn College. The project's ability to increase program capacity is vital to the College's mission to support student success, as the electrical program continues to grow in popularity because of the lucrative job opportunities available in the electrical industry. The electrical program is currently the fifth largest program at Penn College, with 225 students enrolled.	Susquehanna Real Estate Corp., GasSearch Drilling Services
202306304751	Pennsylvania College of Technology Foundation, Inc.	Williamsport Lycoming County	SPP	\$500,000	The project will be accomplished by moving the architecture program from its current location in Penn College's Lifelong Education Center to the fourth floor of the Klump Academic Center. Renovations will take place within the new space in the Academic Center to allow the architecture and sustainable design program to increase program capacity by 39 students, double the size of studio spaces, separate instructional spaces from studio production spaces, and add a second jury space and two computer labs. The renovations would increase Penn College's chances of receiving National Architectural Accrediting Board (NAAB) accreditation, benefiting students by encouraging them to obtain architecture licensures which would contribute to higher salaries earlier in their careers, in addition to increasing opportunities of direct support for Penn College from the American Institute of Architects, since NAAB accredited programs are eligible for state and national scholarships.
